THE BAND PLAYED "DIXIE."

And Sousa Won the Hearts of the People at Fayetteville. When North Carolina celebrated its centenary, the Marine band was order-ed to Fayetteville to participate in the ceremonies, said Bandmaster Sousa. The little southern town was much in-terested in the advent of the "president's band," and the prevailing opin-ion was that "Dixie" would be tabooed music with us. Before the exercises a local committee waited upon me and intimated that "Dixie" was a popular melody in that vicinity.

"Of course," said the spokesman, "we don't want you to play anything you don't want to, but please remember, sir, that we are very fond of 'Dixle' here."

Bowing gravely, I thanked the committee for their interest in my programme, but left them completely in the dark as to whether I intended to play the loved song of the south or not. The ceremonies opened with a patri-otic address by Governor Fowle lauding the glories of the American flag, and naturally the only appropriate mu-sic to such a sentiment was "The Star Spangled Banner," which the crowd patriotically cheered.

The tone of the succeeding oration was equally fervid, but the speaker en-larged upon the glories of the commonwealth whose one hundredth anniver sary was being celebrated. The orator sat down, and there was a momentary pause, and then as I raised my bator the strains of "Dixie" fell upon the de-lighted ears of the thousands round the

The unexpected had happened, and such a shout as went up from that throng I have never heard equaled. Hats were tossed in the air, gray haired men embraced, and for a few minutes a jubilant pandemonium reigned supreme. One day last week a rough looking young man came into his store and asked for a piece of chewing tobacco. DE WET AND GENERAL FRENCH At the same time he laid a 50 cent plece lightly on the counter. The old man picked up the money and looked at it. It had a dull color and was not as heavy as an ordinary half dollar. The proprietor walked over to where the tobacco was, and, taking down a piece of the brand the young man had called for, he pretended to put it under the tobacco cutter, but instead he slipoost.

"I am so grateful to you for your advice," says Mrs. Sidney B. Cakes, of Whitmell, Pittsylvania Co., Va. "When I commenced your medicines I had been treated by different doctors for three months or more, but would only receive partial relief for a short while and then would be worse than before. Was confined to my bed most of the time. At the time I commenced your treatment my left side was completely paralyzed. Had no desire to eat anything; bowels costive all the time. Nerves were all unstrung, so I could not bear the least noise. I also suffered from diseased ovaries and female weakness. But thanks to my Maker and you, after following your advice, I am able to do all my washing, sewing and house work in general. I haven't had a spasm in two months. Left off medicines about one month ago. Didn't think it necessary to continue them longer. I have taken about seven bottles of Dr. Pierce's Favorite Prescription, seven of the 'Golden Medical Biscovery,' and two vials of 'Pleasant Pellets.' I heartily recommend those medicines to all suffering as I was."

Thou, thou dost-mount the skies we love.

The stars we never scale.

Thou knowest not, winged soul, the fires Of that old discord strange. The vast and infinite desires, The all too finite range.

So sing for us! Our throats are still,
And song no solace brings—

THE DATE OF THE FLOOD. Bible Facts on Which the Bishop Based His Question.

Some people had fun over the re-ported rejection of eight candidates for the African Methodist ministry in the south by the examining bishop because they could not tell the date of the flood. Nevertheless the bishop who asked the question knew what he was doing. It may not have been a fair question, but there is a concise answer to it in the Bible, and he no doubt ithought that the eight candidates, if they were well versed in the Old Testa-

ment, would answer it at once. The date of the flood was 1,656 years after the birth of Adam, in the second month and the seventeenth day. It began then and continued for 40 days and nights. This is how it is figured: The third verse of the fifth chapter of Genesis reads thus, "And Adam lived 130 years and begat a son in his own likeness, after his image, and called his name Seth." Then in the sixth verse it is told that Seth lived 105 years and begat Enos. Adam, says the fourth verse, lived 800 years after the birth of Seth, and the latter after the birth of Enos lived 807 years. So it goes on. Enos begat Cainan when he was 90; Cainan begat Mahalaleel when he was 75; Mahalaleel begat Jared when he was 65; Jared begat Enoch when he was 162. Methuselah was born to Enoch when the latter was 65, and when Methuselah was 187 he begat Lamech, and Lamech's son Noah came into the world when the father was This brings us down to the birth of Noah, which, according to the added ages of the several patriarchs at the time their sons were born, occurred 1.056 years after the birth of Adam.

In the seventh chapter of Gensis the eleventh verse reads as follows: "In the six hundredth year of Noah's life, in the second month, the seventeenth day of the month, the same day were all the fountains of the great deep broken up and all the windows of heaven were opened." This was the flood, and it came to pass in the year 1656 after the birth of Adam.—New York

The Average Lawsuit.

There is nothing more ridiculous than the average lawsuit. Two men dispute over a few dollars and go to law. Both are sure to lose. Their neighbors are dragged in as witnesses, and the costs amount to 10 or 20 times the amount in dispute. Frequently these lawsuits ruin families and start quarrels that last for years. Some men claim it is "principle" that actuates them in these lawsuits. It is bullheadedness, pure and simple. It is nearly always easy to "split the difference."

Another bad feature about these law-

sults is that the county is put to considerable expense, and men willing to work are compelled to sit on the jury. Settle your disputes without going to law. If the man with whom you are disputing is not willing to "split the difference," he will probably accept a proposition to leave it to three neighbors.—Atchison Globe.

in Passaic county, New Jersey, is identical to that of de Menetiz.

Speer's New Jersey Vineyards
are situated in the Passaic valley below the mountain range and the grapes are carted to the winery in the town of Passaic where they are mashed between rollers made of rubber, which do not break the seeds, and made into wine.

These grand wines of Speer's that have mellowed in flavor in the course of years of ripening, are the choicest wines in this country and can only be obtained by paying a price that is higher than new wines from western vineyards. Mr. Speer deems it necessary for a healthy wine that it be allowed years to mature in wood to get rid of its coarse parts; with this object he keeps his wines several years in fumigated cellars and frequently racks before bottling or offering for sale. The reputation of Speer's wines as a valuable medicinal and amily wine extends around the world.

SET THE ALMANAU THAT PREDIT-ED THE GALVESTON STORM.

The Ladies' Birthday Aimanac for 1901 is being distributed in our city this week. This publication achieved great prominence in September by its accurate prediction of the Galveston storm. The New York Times, September 18th, said: "Galveston's d'sastrows storm was predicted with startling accuracy by the weather prophet, Andrew Jackson DeVoe, in the Ladies' Birthday Almanac, issued in Chattanooga, Tenn., latt January." It is so different from the ordinary cheap patent medicine almanac, that it has become very popular, and now has a circulation of 15,000,000 copies annually. Our readers who have not received a copy of the 1901 edition, can get it from their merchant, or by sending their address to the Ladies' Birthday Almanac, Chattanooga, Tenn.
